LANGUAGES

Danish (native)
English (fluent)

I'm curious, slightly obsessive about understanding things, and happiest when I'm learning something I didn't know yesterday.

I enjoy the phase of confusion where I haven't quite grasped something yet, and have to dig into what isn't immediately apparent: how information shapes what we understand, where systems start to break down, and what happens when new technology enters the picture. My background in Digital Design and Information Studies lets me move between research, design and technology without seeing them as separate worlds. For me, good design starts with understanding the problem before bringing aesthetics and function together. I learn by getting my hands dirty: asking questions, testing ideas and going down rabbit holes.

EXPERIENCE

MAR 2026 – PRESENT

Duus Partners P/S

Project Specialist, Digital Product Design · Copenhagen

Digital product designer working across client projects in Agile environments, translating complex requirements into functional digital solutions.

- Collaborate on the end-to-end product design of The Green Log, turning 120+ sustainability actions into an intuitive digital tool
- Design and build DSB's Vinge Togværksted digital platform, from UX and prototyping through to implementation
- Facilitate iterative design processes through user feedback and refine prototypes within Agile workflows

FEB 2025 – PRESENT

Bæredygtigt Kulturliv NU

Student Assistant, Digital Design · Copenhagen

Lead digital design and visual communication across projects, working in an Agile setup to coordinate and align tasks with the team.

- Redesign, build and maintain the website in Webflow, focusing on information architecture to improve the overall user experience (UX)
- Develop graphic and visual assets for digital platforms, events, and communication materials
- Produce content for web and social media, and coordinate communication across projects
- Event hosting and facilitation, alongside contributions to funding applications for the organisation's projects

SEP 2022 – JUN 2024

KOLLAB

Student Assistant, Digital Design & Communication · Aarhus

- Design and build the company website, owning web design, visual identity and user experience (UX)
- Produce graphic material and visual content for social media
- Qualify and update freelance IT consultant profiles in the company database through regular direct contact
